**Common Applications:** Oil & Gas, Petrochemical, Chemical, Food, Beverage, Personal Care, Pharmaceutical, Pulp & Paper, Water Treatment

<p style="text-align: center;"><b>EST. 1932</b></p> 	<p style="text-align: center;"><b>NOVADOS METERING PUMPS</b></p> <ul style="list-style-type: none"> <li>▪ Horizontal and vertical metering pumps</li> <li>▪ Modular, single and multi-stream pump configurations to match the process requirements</li> <li>▪ Pressures up to 15,000 PSI</li> <li>▪ Flow rates up to 6,000 GPH</li> <li>▪ Variable speed drive &amp; variable stroke adjustment for manual or automatic flow control</li> <li>▪ Double diaphragm and plunger pumps, API 675 compliant</li> <li>▪ Remote condition monitoring with the NOVALINK-CSM online diagnostic system</li> </ul>
	<p style="text-align: center;"><b>DOUBLE ACTING DIAPHRAGM PUMPHEAD</b></p> <ul style="list-style-type: none"> <li>▪ Real doubled flow rate</li> <li>▪ Smaller footprint than duplex designs</li> <li>▪ Reduced weight and cost</li> <li>▪ Uses less energy</li> <li>▪ Hermetically sealed by 2 PTFE diaphragms</li> <li>▪ Customizable to meet specific requirements</li> </ul>
	<p style="text-align: center;"><b>NOVAPLEX PROCESS PUMPS</b></p> <ul style="list-style-type: none"> <li>▪ Reciprocating high performance diaphragm process pumps for high pressure and high capacity applications</li> <li>▪ Modular design, additions can be added on for future expansions</li> <li>▪ Pumping chamber hermetically sealed</li> <li>▪ Pressures up to 15,000 PSI</li> <li>▪ Flow rates up to 21,000 GPH</li> <li>▪ Hydraulic power up to 260 kW / 350 HP with variable speed control option</li> <li>▪ Remote condition monitoring with the NOVALINK-CSM online diagnostic system</li> </ul>
	<p style="text-align: center;"><b>NOVAPLEX VECTOR</b></p> <ul style="list-style-type: none"> <li>▪ Triplex API 674 process pump</li> <li>▪ Operating pressure to 5,800 PSI</li> <li>▪ Flow rates up to 18,480 GPH</li> <li>▪ Patented design innovation</li> <li>▪ Reduced maintenance</li> <li>▪ Saves space, weight and cost</li> </ul>
	<p style="text-align: center;"><b>CHEMICAL PROCESSING</b></p> <ul style="list-style-type: none"> <li>▪ Blending processes or single chemical dosing</li> <li>▪ Heating, cooling and mixing options</li> <li>▪ ATEX designs available</li> <li>▪ Suitable for hostile environments</li> <li>▪ Custom designed, built and fully tested</li> <li>▪ Minimal onsite installation</li> <li>▪ Continuous or batch applications</li> <li>▪ Control Options (PLC to full SCADA)</li> </ul>

**Common Applications:** Methanol, Glycol, Corrosion Inhibitor, Scale Inhibitor, Demulsifier, Antifoam, Biocide, Flocculant, Oxygen Scavenger, Condensate, Polymer, Odorant, Hypochlorite, Drag Reducer, Polyelectrolyte

<p><b>EST. 1932</b></p> 	<p><b>BASIC INJECTION PACKAGES</b></p> <ul style="list-style-type: none"> <li>Single chemical/single injection point</li> <li>Duty or duty/standby arrangement</li> <li>Simple design</li> <li>Space efficient</li> <li>Fast and easy to operate and maintain</li> <li>Quick delivery</li> <li>Long term aftermarket and service support</li> <li>Fit for purpose, but higher quality</li> </ul>
	<p><b>MULTI-PUMPHEAD PACKAGES</b></p> <ul style="list-style-type: none"> <li>Multi-pumphead injection and storage package</li> <li>Single chemical/single injection point</li> <li>High volume/high pressure/high temperature applications</li> <li>Designed for hazardous area installations</li> <li>Suitable for hostile environments</li> <li>Custom designed, built and fully tested</li> <li>Minimal on-site installation</li> <li>Continuous or batch applications</li> </ul>
	<p><b>MULTI-POINT CHEMICAL INJECTION PACKAGES</b></p> <ul style="list-style-type: none"> <li>Multi-compartment storage volume with different chemicals</li> <li>Horizontal modular duty/standby multi-headed pumps</li> <li>Single source - single accountability</li> <li>Comprehensive solution, tailor made to client requirements</li> <li>Topsides or subsea applications</li> <li>Easy operation and maintenance</li> <li>Designed for low and high temperatures</li> </ul>
	<p><b>VERTICAL MULTI-PUMPHEAD PACKAGES</b></p> <ul style="list-style-type: none"> <li>Patented Vertical modular pump configuration</li> <li>Space and weight efficiency</li> <li>Design concept permits future expansion</li> <li>High accuracy, repeatability and durability</li> <li>Self-contained storage and injection package</li> <li>Extensive global reference list of installations</li> <li>Highly engineered components to meet stringent requirements</li> </ul>
	<p><b>SOLAR PANEL PACKAGES</b></p> <ul style="list-style-type: none"> <li>Completely self-contained including solar panels and battery backup</li> <li>Suitable for remote desert and hostile locations</li> <li>Low power consumption of motor</li> <li>Minimum friction losses giving high reliability &amp; high efficiency</li> <li>Low maintenance/low life cycle costs</li> <li>Higher returns on investment</li> <li>Environmentally friendly</li> </ul>
	<p><b>FLOW CONTROL VALVE PANELS</b></p> <ul style="list-style-type: none"> <li>Self-regulating injection metering valves</li> <li>Multi-injection points with either a dedicated or common flow meter</li> <li>More than one chemical can be accommodated</li> <li>Duty/standby pumps recommended per chemical</li> <li>Stand-alone or inclusive panels supplied</li> <li>Manual or remote control</li> <li>Space and weight efficient</li> </ul>
